## EDUCATION

---

### Sejong University

Seoul, South Korea

Bachelor of Department of Software; GPA: 3.52/4.5

Mar 2017 - Present (Expected Feb 2022)

- **Relevant Courses** Capstone Design, General Physics and Simulation, Artificial Intelligence, Understanding Advanced Programming-P

## EXPERIENCE

---

- **Solugate** Seoul, South Korea  
*Research Assistant* Mar 2020 - Jun 2020
  - Implemented **misspelled data generation program** to contribute to training Artificial Intelligence Model using Python3
  - Developed features that **highlight words and sentences** when playing voice files in VOC(Voice Of Customer) program and Acquired positive reviews from existing users

## PROJECTS

---

- **MoreGreen** Seoul  
*Backend Engineer* April 2021 - Present
  - Implementing online shop items crawling code using Python3
  - Developing and Deploying API servers using Express.js and Heroku
- **PressCheck: Online Article Analysis Service Based on Machine Learning** Sejong University, Seoul  
*Frontend Engineer | News Similarity Analysis | Github Link* Sep 2020 - Nov 2020
  - Spearheaded projects by creating overall flowchart and Implemented News similarity Analysis algorithm using Python3
  - Developed overall front-end pages using React.js
- **Emoji Recommend AI** Sejong University, Seoul  
*Fullstack Engineer | Collected and Preprocessed Raw Data | Github Link* May 2019 - Jun 2019
  - Spearheaded projects and Developed the overall project configuration
  - Implemented flask server
  - Developed data collection code using Python3

## AWARDS

---

- **Popular/Participation prize: Online Article Analysis Service based on ML** Sejong University, Seoul  
*Sejong University: The 10th Creative Design Competition* Dec.11 2020
- **Gold Award: Online Test Cheating Prevention Platform** Sejong University, Seoul  
*Sejong University: The 8th SW/AI Hackathon* Jul.7 2020
- **Silver Award: AI Chatbot for TA(Teaching Assistant)** Sejong University, Seoul  
*Sejong University: The 6th SW/AI Hackathon* Jun.25 2019

## DEVELOPMENT SKILLS

---

- **Programming Languages** C/C++, Python3, HTML, CSS, JavaScript
- **Framework / Library** React, React Native, Express, Flask, Tensorflow
- **IDE / Tools** Git, Github, Jenkins, PyCharm, Anaconda
- **Extracurricular**
  - **Studying in 42SEOUL** Sep 2020 - Present
  - **Completed K-SW Purdue Program** Sep 2019 - Dec 2019
  - **Mentored Haeseong Girls' High School Students in 2019 High School Software Club Mentoring Program (Python3)** Mar 2019 - Aug 2019
  - **Published book: Work Automation Using Artificial Intelligence With Google Developers Group JEJU** Apr.12 2019
