EDUCATION

Sejong University

Seoul, South Korea

Bachelor of Department of Software; GPA: 3.52/4.5

Mar 2017 - Present (Expected Feb 2022)

- **Relevant Courses** Capstone Design, General Physics and Simulation, Artificial Intelligence, Understanding Advanced Programming-P

EXPERIENCE

- **Solugate** Seoul, South Korea
Research Assistant Mar 2020 - Jun 2020
 - Implemented **misspelled data generation programs** to contribute to training Artificial Intelligence Model using Python3
 - Developed features that **highlight words and sentences** when playing voice files in VOC(Voice Of Customer) program and Acquired positive reviews from existing users

PROJECTS

- **MoreGreen** Seoul
Backend Engineer April 2021 - Present
 - Implementing online shop items crawling code using Python3
 - Developing and Deploying API servers using Express.js and Heroku
- **PressCheck: Online Article Analysis Service Based on Machine Learning** Sejong University, Seoul
News Similarity Analysis | Frontend Engineer | Github Link Sep 2020 - Nov 2020
 - Spearheaded projects by creating overall flowchart and Implemented News similarity Analysis algorithm using Python3
 - Developed overall front-end pages using React.js
- **Online Test Cheating Prevention Platform** Sejong University, Seoul
Frontend Engineer | Github Link Jul.02 2019 - Jul.03 2019
 - Spearheaded projects and Implemented overall front-end pages using React.js
 - Embedded Teachable machine model

AWARDS

- **Popular/Participation prize: Online Article Analysis Service based on ML** Sejong University, Seoul
Sejong University: The 10th Creative Design Competition Dec.11 2020
- **Gold Award: Online Test Cheating Prevention Platform** Sejong University, Seoul
Sejong University: The 8th SW/AI Hackathon Jul.7 2020
- **Silver Award: AI Chatbot for TA(Teaching Assistant)** Sejong University, Seoul
Sejong University: The 6th SW/AI Hackathon Jun.25 2019

DEVELOPMENT SKILLS

- **Programming Languages** C/C++, Python3, HTML, CSS, JavaScript
- **Framework / Library** React, React Native, Express, Flask, Tensorflow
- **IDE / Tools** Git, Github, Jenkins, PyCharm, Anaconda
- **Extracurricular**
 - Studying in 42SEOUL Sep 2020 - Present
 - Completed K-SW Purdue Program Sep 2019 - Dec 2019
 - Mentored Haeseong Girls' High School Students in 2019 High School Software Club Mentoring Program (Python3) Mar 2019 - Aug 2019
 - Mentored college alumni in Sejong University Tutoring Program (C language) Sep 2018 - Jun 2019
